A Survey of Graduating Students Southeastern Exit Survey 2017-2018

Background and Instrument Development

In their plans to assess their major fields, most academic departments at Southeastern Louisiana University indicated a desire to collect information from graduating seniors through the use of an exit survey. In order to reduce duplication and standardize data collection, a general survey instrument was developed, allowing individual departments the opportunity to add other questions to the instrument which would address specific issues regarding their majors.

The first exit survey was conducted in May 1992, using as participants students who expected to receive their baccalaureate degree at that time. The second exit survey focused on students who expected to receive their baccalaureate degrees in December 1992 and May 1993. Both of these surveys were conducted by mail and were distributed to graduating seniors.

In the Summer of 1993 the electronic Senior Exit Survey was put in place as part of the application for graduation procedure. Students completed the Senior Exit Survey when they applied for graduation, which in some cases could be as early as two years prior to graduation.

In the Summer of 1996, the Senior Exit Survey was revamped and renamed the Southeastern Exit Survey. It was also separated from the graduation application and shortened so that it focused only on major field assessment. All graduating students, including those receiving Associate and Master's degrees, were required to complete the Southeastern Exit Survey during their semester of graduation.

The original Senior Exit Survey was developed through an examination of SACS criteria and instruments used by other institutions in order to identify which major field issues should be addressed. During the Spring of 1996, the questions were reworded so that they would be applicable to all students, regardless of degree or major. The revised questions used a 1 (Very Dissatisfied) to 5 (Very Satisfied) scale, and required students to enter a valid response for each item. In June 1998, four more questions which specifically targeted advising were added to the instrument. In August 2001, five questions were added to obtain measurements for Southeastern's strategic plan, Vision 2005. In Spring 2003, the Exit Survey was migrated to PeopleSoft and the items were reviewed by Department Heads and Deans, and revisions were made.

In Fall 2008, a second part was added to the Southeastern Exit Survey. Questions related to students future employment and further education were developed in SurveyMonkey. During the last two weeks of the semester, graduates are sent a link to the questions via e-mail, with several reminders during that time. In Summer 2016, the second part of the Southeastern Exit

Survey was modified to correspond to the National Association of Colleges and Employers (NACE) First Destination Survey standards and protocols.

Part 1 of the Southeastern Exit Survey

Method

Participants

The potential participants for this survey were 2,122 students who graduated from Southeastern Louisiana University in Summer 2017, Fall 2017, and Spring 2018. Of the 2,122 potential participants, 2,091 graduates completed the survey for a response rate of 98.5%. Students are required to complete a Southeastern Exit Survey for each major in which they graduate resulting in a total of 2,103 Southeastern Exit Surveys completed.

Of the 2,091 respondents, 64% (n=1,333) were female and 36% (n=757) were male. The vast majority (69%, n=1,434) were White, while 15% (n=310) were Black. One hundred sixty-nine individuals (8%) were Hispanic, 2% (n=42) were Asian, 0.1% (n=2) were American Indian/Alaskan Native, 0.1% (n=2) were Native Hawaiian or other Pacific Islander, 5% (n=112) were two or more races, and 1.0% (n=20) did not report a race.

In terms of entry to Southeastern, the largest group (21%, n=430) began attending Southeastern in the Fall of 2013. Two of the students started as early as the Fall of 1985, while one started as recently as Fall 2017.

For Masters degree students, the average age at time of graduation was 29.8 and the average cumulative GPA was 3.761. For Associate degree recipients, the average age at time of graduation was 23.6 and the average cumulative GPA was 2.851, while Bachelor degree recipients were 24.4 on average and had a 3.033 cumulative GPA, and doctoral students were 42.5 with a GPA of 3.869. The largest number of participants in the Exit Survey (50%, n=1,044) graduated in Spring 2018, while 42% (n=882) graduated in Fall 2017, and 8% (n=165) graduated in Summer 2017.

Procedure

All students are required to complete the Southeastern Exit Survey during the semester in which they graduate. If a student reapplies for a later graduation semester, the Southeastern Exit Survey must be retaken, and only the most recent results are included in this report. At the beginning of the semester in which students had applied to graduate, students were sent an e-mail notification informing them of the need to complete the Southeastern Exit Survey. Students who still had not completed the Southeastern Exit Survey were sent several reminders throughout the semester. The last week of classes, Deans were notified of the students in their colleges who had not completed the Exit Survey and were asked to contact those individuals. Computer stations were set up during the Fall and Spring Grad Fair, also giving students another opportunity to complete the survey.

Instrument

The Southeastern Exit Survey contains 32 questions which address six general areas related to the student’s major field: faculty and staff, courses, availability of courses and learning opportunities, resources and facilities, advising, and overall satisfaction. There are also two questions (33 and 34) that are given only to undergraduates. The answer options for these questions are 1 (Very Dissatisfied) to 5 (Very Satisfied), and are presented in Table 1.
