Science	143	61.2	3.7	60.3	4.8	27% (62.2)	33% (61.0)	30% (61.3)	11	26	34	29

* Based on CAAP Norms, CAAP Tested Seniors **Based on those responding

ACT's Collegiate Assessment of Academic Proficiency (CAAP) was administered at Southeastern in February 2014. The CAAP is a standardized, nationally normed assessment that helps institutions evaluate their general education outcomes. It was administered in a total of 56 capstone courses or senior level seminar courses across all majors. Five modules were administered across the courses, Reading, Writing Skills, Critical Thinking, Mathematics, Science, and every effort was made to administer each module proportionally across colleges. Overall, 794 students participated in this assessment, 693 seniors and 101 juniors. Because the national norms are provided by student classification only, only seniors were included in these analyses.
