## NOTES TO THE FINANCIAL STATEMENTS

### INTRODUCTION

Southeastern Louisiana University (University), a publicly supported institution of higher education, is a component unit of the University of Louisiana System (System). The System is a component unit of the State of Louisiana within the executive branch of government. The University is under the management and supervision of the University of Louisiana System Board of Supervisors; however, the annual budget of the System and the University and changes to the degree programs, departments of instruction, *et cetera*, of the University requires the approval of the Board of Regents for Higher Education. The Board of Supervisors is comprised of 15 members appointed for staggered six-year terms by the Governor, with the consent of the Senate, and one student member appointed for a one-year term by a council composed of the student body presidents of the universities within the System. As a state university, operations of the University's instructional programs are funded through annual lapsing appropriations made by the Louisiana Legislature. The chief executive officer of the System is the president. In addition, the chief executive officer of the University is the university president.

The university had approximately 13,492 students enrolled during the fall semester of the 2022/2023 academic year and employed approximately 1,570 employees.

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. BASIS OF PRESENTATION

The Governmental Accounting Standards Board (GASB) promulgates accounting principles and reporting standards for state and local governments. These principles are found in the *Codification of Governmental Accounting and Financial Reporting Standards*, published by GASB.

#### B. REPORTING ENTITY

GASB Codification Section 2100 has defined the governmental reporting entity to be the State of Louisiana. The System is considered a component unit of the State of Louisiana because the State exercises oversight responsibility and has accountability for fiscal matters as follows: (1) the majority of the members of the governing board are appointed by the Governor; (2) the State has control and exercises authority over budget matters; (3) the State issues bonds to finance certain construction; and (4) the universities within the System primarily serve State residents. The accompanying financial statements present information only as to the transactions of the programs of the University as authorized by Louisiana statutes and administrative regulations.

Annually, the State of Louisiana issues basic financial statements, which include the activity contained in the accompanying financial statements. The System's financial statements are audited by the Louisiana Legislative Auditor.

#### *Blended Component Unit*

University Facilities, Inc. is a Louisiana nonprofit corporation that is considered a blended component unit of the University because it is fiscally dependent on the University. The purpose of the organization is to promote, assist, and benefit the mission of the University through the acquisition, construction, development, management, leasing or otherwise assisting in the acquisition, construction, development, management, or leasing of student housing or other facilities on behalf of the University. Although this facility corporation is legally separate, it is reported as a part of the University because:

- The majority of its revenue comes from leasing facilities to the university, and/or
- In accordance with GASB Statement No. 61, *The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and 34*, a component unit shall be blended with its primary government if the component unit's total outstanding debt, including leases, is expected to be repaid entirely or almost entirely with the resources of its primary government.

To obtain the corporation's latest audit report, write to:

- University Facilities, Inc., c/o Mr. Sam Domiano, Southeastern Louisiana University, SLU 10709, Hammond, Louisiana 70402

### **C. BASIS OF ACCOUNTING**

For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. All activities of the University are accounted for within a single proprietary (enterprise) fund. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-system transactions have been eliminated.

### **D. BUDGET PRACTICES**

The State of Louisiana's appropriation is an annual lapsing appropriation established by legislative action and by Title 39 of the Louisiana Revised Statutes. The statute requires that the budget be approved by the Board of Regents for Higher Education and certain legislative and executive branches of state government. Budget revisions are granted by

the Joint Legislative Committee on the Budget. In compliance with these legal restrictions, budgets are adopted on the accrual basis of accounting, except that (1) depreciation is not recognized; (2) leave costs are treated as budgeted expenditures to the extent that they are expected to be paid; (3) summer school tuition and fees and summer school faculty salaries and related benefits for June are not prorated but are recognized in the succeeding year; and (4) inventories are recorded as expenditures at the time of purchase.

#### **E. CASH AND CASH EQUIVALENTS AND INVESTMENTS**

Cash includes cash on hand (petty cash), demand deposits, and interest-bearing demand deposits. Cash equivalents include certificates of deposit and all highly liquid investments with a maturity of three months or less when purchased. Under State law, the University may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. Furthermore, the University may invest in certificates of deposit of state banks organized under Louisiana law and national banks having their principal offices in Louisiana. Cash equivalents reported on the Statement of Net Position include all negotiable certificates of deposit, regardless of maturity.

The University follows Louisiana Revised Statute (R.S.) 49:327 as applicable to institutions of higher education in establishing investment policy. R.S. 49:327 authorizes the University to invest funds in direct U.S. Treasury obligations, U.S. government agency obligations, direct security repurchase agreements, reverse direct repurchase agreements, investment grade commercial paper, investment grade corporate notes and bonds, and money market funds.

Funds derived from gifts and grants, endowments, and reserve funds established in accordance with bond issues may be invested as stipulated by the conditions of the gift instrument or bond indenture. The University's foundation holds and manages funds received by the University for the Endowed Chairs and Endowed Professorship programs; the Louisiana Board of Regents has established investment policies and procedures related to how endowment funds may be invested.

Investments are reported at fair value, or at net asset value, where applicable, for certain endowment investments, in accordance with GASB Statement No. 31, as amended by GASB Statement No. 72. Changes in the carrying value of investments, resulting from unrealized gains and losses, are reported as a component of investment income in the Statement of Revenues, Expenses, and Changes in Net Position. For purposes of the Statement of Cash Flows, the University considers all highly-liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

## **F. NONCURRENT RESTRICTED ASSETS**

Cash, investments, receivables, and other assets that are externally restricted for grants, endowments, debt service payments, maintenance of sinking or reserve funds, or to purchase or construct capital assets are classified as noncurrent restricted assets in the Statement of Net Position.

## **G. CAPITAL ASSETS**

Capital assets are reported at cost at the date of acquisition or their estimated fair value at the date of donation. For movable property, the University's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized if they exceed \$100,000. Any infrastructure exceeding \$3 million must be capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense is incurred. Depreciation is computed using the straight-line method over the estimated useful life of the assets, generally 40 years for buildings and infrastructure, 20 years for depreciable land improvements, three to 10 years for most movable property, three years for software with an acquisition cost of \$1,000,000 or more, and three to 10 years for internally generated software with development costs of \$1,000,000 or more.

## **H. UNEARNED REVENUES**

Unearned revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but are related to the subsequent accounting period. Unearned revenues also include amounts received from grant and contract sponsors that have not yet been earned.

## **I. COMPENSATED ABSENCES**

The University's compensated absences liability is computed in accordance with GASB Codification Section C60.

Employees accrue and accumulate annual and sick leave in accordance with state law and administrative regulations. The leave is accumulated without limitation; however, nine-month faculty members do not accrue annual leave but are granted faculty leave during holiday periods when students are not in classes. Employees who are considered having nonexempt status according to the guidelines contained in the Fair Labor Standards Act may be paid for compensatory leave earned.

Upon separation of employment, both classified and nonclassified personnel or their heirs are compensated for accumulated annual leave not to exceed 300 hours. In addition, academic and nonclassified personnel or their heirs are compensated for accumulated sick leave not to exceed 25 days upon retirement or death. Act 343 of 1993 allows members of

the Louisiana State Employees' Retirement System (LASERS), upon application for retirement, the option of receiving an actuarially determined lump sum payment for annual and sick leave, which would otherwise have been used to compute years of service for retirement. Unused annual leave in excess of 300 hours plus unused sick leave are used to compute retirement benefits.

Upon termination or transfer, a classified employee will be paid for any one and one-half hour compensatory leave earned and may or may not be paid for any straight hour-for-hour compensatory leave earned. Compensation paid is based on the classified employee's hourly rate of pay at termination or transfer.

## **J. NONCURRENT LIABILITIES**

Noncurrent liabilities include principal amounts of revenue bonds payable, notes payable, and capital lease obligations with contractual maturities greater than one year; amounts for accrued compensated absences; the University's proportionate shares of the LASERS and Teachers' Retirement System of Louisiana (TRSL) actuarially accrued net pension liability and the actuarially accrued liability for other postemployment benefits (OPEB); and other liabilities that will not be paid within the next fiscal year.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of LASERS and TRSL, and additions to/deductions from the retirement systems' fiduciary net position have been determined on the same basis as they are reported by the retirement systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The plans' investments are reported at fair value.

## **K. NET POSITION**

The University's net position is classified as follows:

(1) Net Investment in Capital Assets

Net investment in capital assets represents the University's total investment in capital assets, net of accumulated depreciation and reduced by outstanding debt obligations related to acquisition, construction, or improvement of those capital assets.

(2) Restricted Net Position – Expendable

Restricted expendable net position includes resources that the University is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

(3) Restricted Net Position – Nonexpendable

Restricted nonexpendable net position consists of endowment and similar type funds that donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

(4) Unrestricted Net Position

Unrestricted net position represents resources derived from student tuition and fees, state appropriations, sales and services of educational departments, and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the University and may be used at the discretion of the governing board to meet current expenses and for any purpose.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the University's policy is to first apply the expense toward unrestricted resources, and then toward restricted resources.

**L. CLASSIFICATION OF REVENUES AND EXPENSES**

The University has classified its revenues as either operating or non-operating according to the following criteria:

(1) Operating Revenue

Operating revenue includes activities that have the characteristics of exchange transactions, such as (a) student tuition and fees, net of scholarship discounts and allowances; (b) sales and services of auxiliary enterprises, net of scholarship discounts and allowances; and (c) most federal, state, and local grants and contracts, and federal appropriations.

(2) Nonoperating revenue

Nonoperating revenue includes activities that have the characteristics of nonexchange transactions, such as gifts and contributions, state appropriations, and investment income.

(3) Operating expenses

Operating expenses generally include transactions resulting from providing goods or services, such as (a) payments to vendors for goods or services;

(b) payments to employees for services; and (c) payments for employee benefits.

(4) Nonoperating expenses

Nonoperating expenses include transactions resulting from financing activities, capital acquisitions, and investing activities.

**M. SCHOLARSHIP DISCOUNTS AND ALLOWANCES**

Student tuition and fee revenues and certain other revenues from students are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances are the difference between the stated charge for services (tuition and fees) provided by the University and the amount that is paid by students and/or third parties making payments on the students' behalf.

**N. USE OF ESTIMATES**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**P. ADOPTION OF NEW ACCOUNTING PRINCIPLES**

For the year ended June 30, 2023, the UL System implemented the following:

- GASB Statement No. 99, *Omnibus 2022* which was issued in April 2022 and which has requirements related to leases, PPPs and SBITAs that are effective for fiscal years beginning after June 15, 2022.
- GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, which was issued in May 2020 and is effective for fiscal years beginning after June 15, 2022.
- GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* which was issued in March 2020 and is effective for fiscal years beginning after June 15, 2022.

The System will include additional information on the new standards in its audited financial statements.

## 2. CASH AND CASH EQUIVALENTS

At June 30, 2023, the University has cash and cash equivalents of \$46,013,659, as follows:

Demand Deposits	\$18,673,270
Certificates of Deposit	13,759,816
Petty Cash	12,150
Blended Component Unit Cash	<u>13,568,423</u>
Total Cash	<u>\$46,013,659</u>

Custodial credit risk is the risk that in the event of a bank failure the University's deposits may not be returned to it. Under State law, the University's deposits (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The fair market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the University or the pledging bank by a holding or custodial bank that is mutually acceptable to both parties.

As of June 30, 2023, the University's bank balance totaled \$48,075,209.

## 3. INVESTMENTS

At June 30, 2023, the University has investments totaling \$29,732,905, of which \$21,113,190 was held by the University's foundation.

### *Fair Value Measurement*

GASB Statement No. 72, *Fair Value Measurement and Application*, requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels.

(1) Level 1

Valuations are based on quoted market prices for identical assets or liabilities traded in active markets.

(2) Level 2

Valuations are based on quoted market prices for similar instruments traded in active markets, quoted prices for identical or similar instruments in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability.

(3) Level 3

Valuations are determined by using the best information available under the circumstances and might include the government's own data. In developing unobservable inputs, a government may begin with its own data but should adjust those data if (a) reasonably available information indicates that other market participants would use different data or (b) there is something particular to the government that is not available to other market participants.

Fair values of assets measured on a recurring basis at June 30, 2023, are as follows:

Description	Totals	Quoted Prices in Active Markets for Identical Assets Level 1	Other Observable Inputs Level 2
Investments held by foundations:			
U.S. government securities:			
US Treasury Notes	\$2,255,490	2,255,490	
Federal Home Loan Mortgage Corporation	849,089		\$849,089
Federal National Mortgage Association	808,579		808,579
Mutual funds	726,161	726,161	
Money market accounts	607,728		607,728
Equity funds	572,106	572,106	
Common and preferred stock	13,981,096	13,981,096	
Corporate bonds/obligations	1,245,651		1,245,651
Other	67,290		67,290
Subtotal	21,113,190	<u>\$17,534,853</u>	<u>\$3,578,337</u>
Not categorized	8,619,715		
Total	<u>\$29,732,905</u>		

Fair values for the University's investments categorized in Level 1 (e.g., equity securities, certain mutual funds, money market accounts) have been obtained using quoted prices from active markets in which these securities are traded (e.g., New York Stock Exchange). Fair values for investments categorized in Level 2 (e.g., United States government securities, certain mutual funds, corporate bonds and obligations) have been provided by the University's investment advisors, financial institutions, or other sources and are based on other observable inputs. Fair values for investments categorized in Level 3 have been provided by the University's investment advisors, financial institutions, or other sources and are based on other available information.

Investments not categorized totaling \$8,619,715 represent the University's investments held by the University's blended component unit reported under Financial Accounting Standards Board Accounting Standards Codification (ASC) §958.

### *Interest Rate Risk*

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. State law as applicable to institutions of higher education does not address interest rate risk. In addition, the University does not have policies to limit interest rate risk. The University's fixed-income investments and maturities at June 30, 2023, follow:

Description	Percentage of Investments	Fair Value	Investment Maturities in Years				
			Less Than 1 Year	1-5 Years	6-10 Years	11-20 Years	Over 20 Years
Investments held by foundations:							
US Government Securities:							
US Treasury Notes	7.59%	\$2,255,490	\$258,718	\$1,458,715	\$538,057		
Federal Home Loan Mortgage Corporation	2.86%	849,089				\$125,354	\$723,735
Federal National Mortgage Association	2.72%	808,579				113,932	694,647
Mutual Funds	2.44%	726,161		597,698			
Money Market Accounts	2.04%	607,728					
Equity Funds	1.92%	572,106					
Common and Preferred Stock	47.02%	13,981,096					
Corporate Bonds/Obligations	4.19%	1,245,651		464,037	730,721	50,893

### *Custodial Credit Risk*

For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty the University will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. For U.S. Treasury obligations and U.S. government agency obligations, the University's investment policies generally require that issuers must provide the University with safekeeping receipts, collateral agreements, and custodial agreements.

### *Concentration of Credit Risk*

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. State law requires that at no time shall the funds invested in U.S. government agency obligations exceed 60% of all monies invested with maturities of 30 days or longer. In addition, State law limits the investment in commercial paper and corporate notes and bonds to

20% of all investments. The University does not have policies to further limit concentration of credit risk.

*Credit Risk*

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. As stated above, the University follows R.S. 49:327 to limit credit risk. The University does not have policies to further limit credit risk. The University's foundation follows guidelines established by the Board of Regents to limit credit risk for the University's endowment investments.

## 8. PENSION LIABILITY

The University participates in two State public employee retirement systems, the Louisiana State Employees' Retirement System (LASERS) and the Teachers' Retirement System of Louisiana (TRSL). The System includes the required disclosures for LASERS and TRSL in its audited financial statements.

## 9. OPTIONAL RETIREMENT SYSTEM

The University participates in the optional retirement plan (ORP), a defined contribution plan, which is administered by TRSL and which was created by R.S. 11:921-931 for academic and administrative employees of public institutions of higher education. The purpose of the optional retirement plan is to provide retirement and death benefits to the participants while affording the maximum portability of these benefits to the participants. The System includes the required disclosures for ORP in its audited financial statements.

**10. POSTEMPLOYMENT HEALTH CARE AND LIFE INSURANCE BENEFITS**

The University provides certain continuing health care and life insurance benefits for its retired employees, offering them the opportunity to participate in the State’s Office of Group Benefits plan. Substantially, all University employees become eligible for these benefits if they reach normal retirement age while working for the University. The System includes the required disclosures for the other postemployment benefit plan in its audited financial statements.

**11. LEASE OBLIGATIONS**

*Lessee Leases*

The University’s leasing operations consist of leasing office space for the Discovery Family Resource Project. The term of this lease is 3 years with a renewal option available.

As disclosed in Note 5, the University has a total of \$116,349 right-to-use, or leased assets, that are capitalized in accordance with policy.

The University's restricted nonexpendable net position totaling \$14,072,023 as of June 30, 2023, was comprised entirely of endowment funds.

*Donor Restricted Endowments*

If a donor has not provided specific instructions, State law permits the University of Louisiana System Board of Supervisors to authorize expenditure of the net appreciation (realized and unrealized) of the investments of endowment funds. Any net appreciation that is spent is required to be spent for the purposes for which the endowment was established.

At June 30, 2023, the University reported restricted-expendable endowments totaling \$7,827,716, all of which is available to be spent for restricted purposes. The University limits endowment spending to the income earned for purposes specified by donors. The donated portion of the endowments is reported in restricted net position - nonexpendable in the Statement of Net Position; the endowment income is reported in restricted net position - expendable.

## 20. CONTINGENT LIABILITIES AND RISK MANAGEMENT

Losses arising from judgments, claims, and similar contingencies such as guaranty of mortgage loans on sorority and fraternity houses are considered State liabilities and are paid upon appropriation by the Legislature and not the University. Therefore, the University, through its legal advisors, estimates that potential claims not covered by insurance would not materially affect the financial statements. Other losses of the University arising from judgments, claims, and similar contingencies are paid through the state's self-insurance fund operated by the Office of Risk Management, the agency responsible for the state's risk management program, or by appropriation from the state's General Fund. The Office of Risk Management insures all of these lawsuits.

## 21. ON-BEHALF PAYMENTS FOR SALARIES AND FRINGE BENEFITS

On-behalf payments for salaries and fringe benefits are direct payments made by one entity to a third-party recipient for the employees of another legally separate entity. On-behalf payments include pension plan contributions, employee health and life insurance premiums, and salary supplements or stipends. For example, a nongovernmental fundraising foundation affiliated with a governmental university may supplement salaries of certain university employees. Those payments constitute on-behalf payments for purposes of reporting by the University.

The amount of on-behalf payments for salaries and fringe benefits included in the accompanying financial statements for the fiscal year ended June 30, 2023, was \$477,144, which consists of contributions to the TRSL pension plan from non-employer contributing entities.

## 22. FOUNDATIONS

The accompanying financial statements do not include the accounts of the following foundations:

Lion Athletic Association  
Southeastern Louisiana University Foundation  
Southeastern Louisiana University Alumni Association, Inc.

These foundations are separate corporations whose financial statements are subject to audit by other independent certified public accountants.

## 23. DEFERRED COMPENSATION PLAN

Certain employees of the University participate in the Louisiana Public Employees' Deferred Compensation Plan adopted under the provisions of the Internal Revenue Code Section 457. Complete disclosures relating to the Plan are included in the separately issued audit report for the Plan, available on the Internet at [www.la.gov](http://www.la.gov).

## 24. COOPERATIVE ENDEAVOR AGREEMENTS

*Southeastern Louisiana University/Livingston Parish School Board*

### *General*

In October 2017, Southeastern Louisiana University (University) accepted from the Southeastern Educational Foundation, which is a subsidiary of the Southeastern Louisiana University Foundation (Foundation), its leasehold estate, authority, sublease and all other rights to the Livingston Parish Literacy and Technology Center (Livingston Center) pursuant to the terms of the Livingston Educational Public Benefit Agreement dated June 18, 2002. The construction and operation of the 39,000 square foot Livingston Center stems from a collaboration between the University and the Livingston Parish School Board (School Board) and was funded through a \$4.5 million 1999 settlement grant to the Foundation from the United States District Court for the Western District of Louisiana. Since its completion, the facility has been utilized by the parties for education programming, including collegiate credit courses and non-credit courses and other programming provided by the University.

### *Obligations*

Pursuant to the cooperative endeavor agreement, the facility is maintained and operated in accordance with guidelines jointly developed by the parties in accordance with the Court Order, with the University serving as a critical operational participant. The Foundation held a leasehold estate in the facility, while the School Board owns the land on which the facility was constructed. Pursuant to the original terms, at the termination of the agreement on June 18, 2027, full ownership of the building reverts to the School Board.

**25. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS (SBITAs)**

The University’s subscription-based information technology arrangements (SBITAs) consist of a cloud-based ERP system. The term of these arrangements are 4 years.

Following is a schedule of principal and interest requirements to maturity, for the University’s SBITA liability:

<u>Fiscal Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
